CLASSIFICATION OF TELEGRAPHISTS, ETC.

TELEGRAPHISTS AT HEAD OFFICES.

For the purpose of classification of telegraphists the lines at the head office shall be divided into first class lines and second class lines.

First class lines shall comprise inter-capital lines and the more important country lines, the latter, except in special cases, not to include Morse lines. The Melbourne-Launceston and the Adelaide-Darwin lines (but not the Adelaide-Darwin iron wire line) shall be considered inter-capital lines.

All other lines shall be deemed to be second class lines.

Officers employed on second class lines will be classified as telegraphists, Class 5 (maximum salary £212, to be attainable by annual increments). Advancement will be subject to reports as to good conduct and efficiency. In the case of any officer who is in receipt of remuneration of £156 or more, and who, at the date an increment accrues, has completed six months' service in head office, advancement will also be subject to a certificate that the officer has proved his competency as a Wheatstone operator under the prescribed conditions.

Officers employed on first class lines, including those who are also required to take charge of the transmitting and receiving sides of Wheatstone circuits and those employed on Creed reperforators, will be classified as telegraphists, Class 4, Grade 1 or Grade 2, as the case may be, provided—

(*a*) That no officer shall be advanced to Grade 1 or Grade 2 unless, in common with 5th Class telegraphists, he is a competent Wheatstone operator. Where, however, such officer has not been employed at an office at which the Wheatstone system has been in operation for at least six months, his promotion shall be dependent upon his qualifying in Wheatstone work within six months of his taking up duty at head office, provided that if he qualify within three months his promotion shall be effective as from the date of his nomination to the vacant position.

(*b*) That an officer shall only be advanced to Grade 1 upon evidence to the satisfaction of the Commissioner that he is competent to satisfactorily perform the business on first class lines, and to maintain an average rate of working at not less than twenty-eight (28) words a minute.

(*c*) That an officer shall only be advanced to Grade 2 upon evidence to the satisfaction of the Commissioner that he is competent to satisfactorily perform the business of inter-capital lines working duplex, maintain an average rate of working (including receiving on a typewriter) at not less than thirty (30) words a minute, and take charge of the transmitting and receiving sides of a Wheatstone circuit, and that he is regularly employed on inter-capital lines continuously working duplex, or in charge of the transmitting and receiving sides of a Wheatstone circuit.

(*d*) That the number of telegraphists, Grades 1 and 2, shall not exceed the number determined by the Commissioner as necessary for the working of first class lines, and for the manning of Wheatstone circuits and Creed reperforators, and that the number in Grade 2 shall not exceed the number determined as necessary for the working of inter-capital duplex lines, and for taking charge of the transmitting and receiving sides of Wheatstone circuits.

The rates of speed in sending and receiving shall be ascertained by an Advisory Committee, who shall observe the officers whilst employed in their daily work, but where it is proposed by the committee that an officer shall be passed over for lack of speed in either sending or receiving, the officer shall, if he so desire, be afforded an opportunity of undergoing a test by the committee, such test to be of not less than ten minutes' duration in sending or receiving, as required.

The satisfactory performance of business shall mean the working of lines without waste of time within an officer's control, legible sending, receiving without frequent breaking, and, generally, the adoption of proper methods in the handling of traffic.

The disposition of 4th and 5th Class Officers must be maintained strictly in accordance with the classification of lines. As a general practice, the employment of 5th Class Officers on first class lines must be restricted wholly to cases of emergency, and no such officers should be employed on first class lines while 4th Class officers are available for such lines. In cases, such as on night staffs, where it may not be practicable to wholly employ officers on correspondingly classified lines, the staff should be so arranged that the preponderance of the more important work shall be performed by 4th Class officers. Should any telegraphist be incapable of working a line corresponding to his classification, the telegraph manager shall report such officer's incapacity, whereupon he will be noted for removal at the first opportunity to a suitable position elsewhere.

Officers whose services are largely utilized for such purposes as assisting the supervisors and relieving supervisory staff shall be designated supervisor, Class IV., or telegraphist, Grade 3, under the conditions provided by the arbitration award. The number of such officers for each head office shall be determined by the Commissioner.

Officers eligible for appointment as supervisor, Class IV., or telegraphist, Grade 3, will be considered upon their known qualifications and efficiency for the performance of the duties of the particular position, and will be required to demonstrate their capacity to carry out the required duties.

POST OFFICES.

The designation of telegraphist will be confined to officers employed exclusively at telegraphic work at certain specified offices. All other clerical officers will be designated clerical assistant.

Advancement of telegraphists will be subject to the same conditions as are prescribed for telegraphists at head offices, providing that the conditions relating to Wheatstone working shall only apply at post offices where messages are sent and received by Wheatstone.

Advancement of clerical assistants will be dependent upon efficient performance of duties and the value of the work assigned to them. Appointments to the position of clerical assistant, Class 5, shall be restricted to officers who are competent to send and receive telegrams at the rate of 25 words a minute.

Telegraphists in post offices will be expected to make themselves acquainted with the general work of a post office, and in determining the advancement of telegraphists and clerical assistants in Class IV., their capacity for relieving the postmaster, if required, will be taken into consideration.

Conditions relative to Wheatstone working referred to in the foregoing:—

An officer shall not be regarded as proficient in Wheatstone working unless competent to—

(*a*) Read perforated signals at the rate of 20 words per minute.

(*b*) Work the Gell perforator at the rate of 25 words per minute.

(*c*) Read from the tape and transcribe Morse characters at the rate of 20 words per minute.

(*d*) Read from the tape and transmit Morse characters at the rate of 20 words per minute.

(*e*) Punch Morse characters at the rate of 20 words per minute; provided that in the case of officers who at the date of test are over 30 years of age the rate may be reduced to 15 words per minute, and that in the case of officers who have reached the age of 35 years this section may be omitted.

(*f*) Balance and adjust Wheatstone circuits so far as the electrical balances are concerned.

(*g*) Evince dexterity and judgment in arranging and gumming Morse tape to forms at such a rate as to keep up with a Wheatstone receiver running at the rate of 80 words per minute.

Work under (*a*), (*c*), and (*d*) must be free from errors. In work under (*b*) and (*c*) one erasure may be permitted in 25 and 20 words respectively.

CLASSIFICATION OF TELEGRAPHISTS, ETC.—*continued.*

TELEGRAPH BRANCHES.

DISPOSITION of Managers, Assistant Managers, Testing Officers, Supervisors, and Telegraphists in 4th and higher classes. All offices of Telegraphist not included in the following Schedule to be in the 5th Class :—

* Officers at Cape Don receive a fixed allowance of £100 per annum in lieu of Scale VII.

SCALE OF DISTRICT ALLOWANCES.

(Regulation No. 168.)

The ratio of allowance to salary for each of the District Scales is as under—

Scale.	Ratio of Allowance to Salary.			Minimum.	Maximum.
	On first £100, or Portion thereof.	On second £100, or Portion thereof.	On Portion of Salary above £200.		
	Per cent.	Per cent.	Per cent.	£	£
I.	10	5	2½	5	20
II.	15	7½	5	10	30
III.	20	10	5	15	35
IV.	25	12½	5	20	45
V.	30	15	5	25	50
VI.	40	20	5	30	..
VII.	50	25	5	40	..

Note.—A Married Officer whose family resides with him at his station may be paid the allowance of the scale next higher than that in which his station is classified. In cases of Married Officers stationed in localities in Scale VII., the allowance may be increased by an amount equal to one-fifth of the scale allowance. An Unmarried Officer may be paid the allowance prescribed for Married Officers if he shows to the satisfaction of the Chief Officer that he is the main support of persons related to him, and that such persons reside with him at his station.

Officers in the State of Western Australia who do not receive a District Allowance under the foregoing scale may be paid a Special Allowance equal to per cent. of their salary.
